

Coronavirus

As the global Coronavirus issue continues to evolve, we would like to reassure you that we are doing our best to take proactive measures for everyone's safety.

We have always implemented high standards of health and hygiene practices and in the current situation, we have reviewed our procedures and enforced extreme measures. Clearly the best way to minimise the risks of this virus is to limit contact between people, so we have the following plan in place.

Restaurant

- *We will ensure tables are at least 1.5m apart.*
- *All table tops are sanitised prior to each booking.*
- *Tables settings (cutlery, crockery, glasses) will be set to order.*
- *All table settings, (cutlery, crockery, glasses) will be heat treated and sanitised during cleaning.*
- *All staff members have been screened for recent overseas travel to affected areas or being around those that have travelled.*
- *Our team will be wiping down with sanitised solution all high traffic surfaces regularly. Including but not limited to door handles, bathrooms surfaces and bar tops.*
- *Regular hand washing and hand sanitising by staff is a general requirement.*
- *Sanitiser stations are being located throughout the restaurant for all to use.*
- *100 person capacity in the restaurant.*

Smokehouse

Our smokehouse is [HACCP certified](#) and will continue to practice and maintain a high standard of hygiene.

With these steps in place we believe we can continue to serve you, our valued customers, while ensuring we have done all we can to minimise the spread of this virus. By working together, we can limit the impact of this virus and hopefully return to normal as quickly as possible.

It is only natural for us as a community to retreat during times of threat and stop doing things we love. It is important however, to remember that local businesses need your support to preserve during these times. The livelihood of our staff members, their families and our affiliated suppliers are all dependants on your patronage. We are committed to continue the exceptional experiences that you have come to enjoy and expect here at Poachers.

We will be closely monitoring the recommended advice from the health experts and government organisations to continue a safe environment. If you have a fever, cough or cold-like symptoms, we ask that you stay home and seek medical advice if required.

Thank you for your understanding, we hope you all stay safe and we look forward to seeing you soon.

The Poachers team
